Agile

Construction

Contract Works Cover built for your project

Protecting construction projects from the ground up with specialised CAR and EAR solutions designed to safeguard builds from start to finish.

Construction companies face a wide range of risks that can make or break a project. From civil works to complex machinery installations, every project carries unique risks. Our specialised CAR and EAR solutions are designed to safeguard construction from start to finish—so you can focus on building with confidence. At Agile, we simplify construction insurance by combining engineering expertise with flexible cover options—so your clients can build with confidence.

What the policy covers

- Construction All Risk (CAR)
- Erection All Risk (EAR)
- Flexible Options: Policies can be purchased by the main contractor, principal, sub-contractor, or in joint names, depending on project needs.

About Agile Underwriting

Agile is a next generation MGA and Syndicate Services company at Lloyd's that blends old traditions with new technology. With over 15 binders and a growing team, AGILE makes the business of insurance better through the power of tech, taking care of the admin, capacity shopping, policy wording, claims, and more leaving you to nurture your client relationships.

Construction

Engineers first. Underwriters always.

Agile's construction underwriters live and breathe construction. With deep technical expertise and insurance know-how, our team provides practical, tailored solutions to mitigate insurable risks for projects of all sizes and complexities.
